

Pivot North Consulting *Specialty Foods & Consulting*

Mission Statement

We are servant leaders. We prioritize people over profit, and dedicate ourselves to the success of our clients and partners through responsible stewardship of their trust and resources.

Our unwavering commitment to integrity, grace and personal responsibility serves as the guiding force behind all our endeavors.

Our objective is clear: To serve our clients by developing massive, sustainable, profitable revenue streams on their behalf that parallel and complement their restaurant ventures using strategies that align with our values of integrity, honesty, innovation and excellence.

In accomplishing this objective, we bring positive change to the retail food industry by introducing consumer-trusted, beloved food products and dominating market share in our categories.

Together with clients, employees and partners we drive a significant, positive impact in the food industry and to those we serve.
